

The smarter way to bank.

THE BEST BANK FOR BUSINESS

Your guide to our products and services

International standards, exceptional expertise

Since we launched BRED Bank Cambodia in 2017, we've worked hard to provide the Kingdom's growing businesses with the highest international banking standards, delivering a combination of **products and services** that is individually **tailored to each customer's needs**.

Across that period, we've grown too. With the full support of our French owners, BRED Banque Populaire, and the backing of the wider BRED Group, we've expanded our branch network, increased our staff count and built on our product range, continually improving our strong relationship management model to ensure that Cambodian businesses can enjoy a business banking experience that is second to none.

Take a look at our full range of business banking products and services and, when you're ready to talk business, just get in touch!

Our relationship management model

All of our business is built on strong, **personal relationships**. When you open an account with us, you'll be teamed up with a Relationship Manager who will be personally responsible for looking after your needs and delivering a suite of products and services that matches your requirements perfectly. We successfully employ this model wherever BRED operates in the world and it's designed to make sure each customer gets all the support they need at all times.

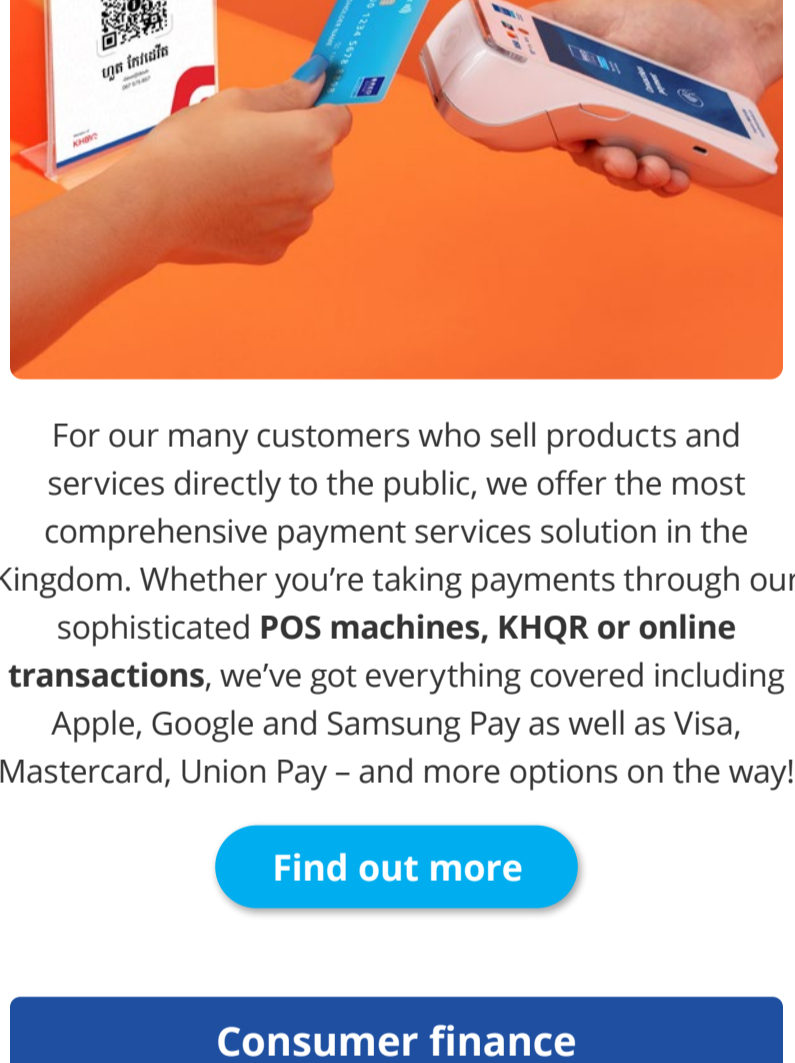

Additionally, our business customers have access to the **expert specialist advice and support** provided by our experienced corporate team. Their insight and knowledge can make a huge difference to your whole business strategy.

A complete business banking package

Our Classic and Corporate banking packages provide all the core banking requirements you need in business. All your current account and cash management options are built in as well as the option to hold funds in different currencies. Fund transfers are easy too with free transfers between BRED Bank Cambodia accounts, competitive costs for international transfers and the ability to transfer instantly with Bakong.

Our banking packages also give you access to exceptional branch banking facilities as well as online and mobile banking through the state-of-the-art BRED Business Connect platform. Your Relationship Manager will be able to advise on which package is right for you – and organise any staff training required.

The right borrowing options for your business

Most businesses borrow from time to time to accelerate growth and improve efficiency. With a strong balance sheet and the backing of our French owners, we're able to support our customers with their plans.

Our team will help you to **structure your finances correctly**, taking into account all your needs before proposing the right mix of borrowing and trade finance options.

We can also arrange overdraft facilities, revolving short-term loans and term loans. All our borrowing options offer fair interest rates and collateral requirements as well as flexible terms and conditions.
