Get the things you want with a BRED Bank Visa credit card

You don't have to save up forever to get the things you want. With a BRED Bank Visa credit card, you can buy it now and pay for it later.

It's up to you how you use your credit card. You can buy almost anything. Whatever you love, go get it with a BRED Bank Visa credit card.

👍 Credit that's right for you

Your credit limit could be anything up to \$50,000, depending on your creditworthiness. No collateral is required and you'll be able to use your card to make purchases and cash withdrawals anywhere in the world where Visa cards are accepted.

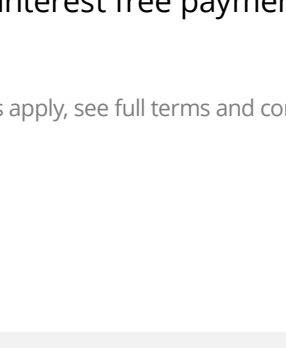

🕒 Repay at your own pace

Using your credit card is like taking a short-term loan with up to 50 days' interest free credit. We'll email you a credit card statement every month (or you can check our statement in your mobile app) so you can keep a track of your spending – and your repayments. You'll then have the option to either clear your balance or repay at your own pace by direct debit from your bank account, electronic transfer or over the counter at a BRED Bank branch, subject to a minimum monthly repayment of 15% of your balance. Incidentally, if you do repay in instalments, our interest rates are amongst the lowest in the Kingdom at just 18% per annum.

🆓 Enjoy your first year fee-free!

We'll waive the annual fee for your first year! That's a saving of \$20 on a Classic Credit Card and \$200 for Platinum! And, thanks to our Annual Fee Discount Programme, you can even avoid paying an annual fee in the future if you hit certain spending targets.
